WORK EXPERIENCE

FULL STACK WEB DEVELOPER

FREELANCER
JAN 2017-NOW

- Create and launch fully functional web applications that combine front-end interfaces with back-end logic.
- Create responsive and mobile-friendly apps, providing a seamless user experience across various devices and screen sizes.
- Successfully integrated third-party APIs (e.g., payment gateways, social media APIs) into web applications, enhancing their functionality and improving user engagement.

MERN STACK WEB DEVELOPER

FREELANCER
JAN 2020-NOW

- Developed and launched complex web applications using the MERN stack. These applications featured a MongoDB database for data storage, Express.js for server-side logic, React for the front-end user interface, and Node.js for server-side runtime.
